EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/13/08 has been entered.

2. Claims 1, 3-11, 13-14, 16-17, 19-24, 26-39, 41, and 45-48 (to be re-numbered as 1-39) are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 3-11, 13-14, 16-17, 19-24, 26-39, 41, and 45-48, the most relevant prior art of record, Liang, Jaakkola, with Massarsky combination, teaches a kernel regression to select some of the semantic facial features for caricature exaggeration and to exaggerate the semantic facial features into exaggerated features, wherein a nonlinear mapping between corresponding unexaggerated features and exaggerated features in the database is learned via the kernel regression (see Final Rejection on 5/14/08).

Applicant's claimed invention distinguishes over the Liang, Jaakkola, with Massarsky combination by selecting a relationship among facial features of the facial image to exaggerate based on a variance of the relationship from a norm derived from the reference facial images in

the reference database, wherein relationships having relatively high variance from the norm are selected for exaggeration, wherein the selecting a relationship comprises: performing a kernel regression in order to map the relationship to similar relationships among similar facial features in the reference facial images; assigning weights to the reference facial images based on a similarity of the relationship to corresponding relationships among feature in the facial images, wherein a high weight is assigned to a high similarity, and applying a linear regression to the weight facial images.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
